Equinox

4560 Equinox

IIDA/HD Product Design Award-winner Equinox's intricate tessellation of triangles undulates from dark to light and back to dark in a metaphor for day and night while two saturated color facets accent the starry pattern and sculpt the illusion of three-dimensional forms. Designed for high-performance contract applications, 54"Equinox has a strong, nylon warp with a GreenShield finish and abrasion resistance over 75,000 double rubs (Wyzenbeek, Cotton Duck). Cotton lends the construction its softness and rich coloration, while fine, postconsumer recycled polyester yarns define the pattern for each of the seven colorways.
