

## 2604 Dawn

Lustrous and soothing, **Dawn's** minimal composition of color and fine texture make this high-performance drapery a sophisticated choice for commercial or residential environments. Serene, with an understated shimmer, Dawn's 6 FR color combinations include an array of delicate colorways such as Buttermilk, Glacier and Silverfox. This exceptional double-width (118") pattern is constructed from 100% Treveria CS polyester contents. Dawn offers excellent value, with a soft hand while also passing NFPA 701 and IMO drapery standards.
