## 3101 Ogee

Ogee's delicate fil-coupé construction reveals the curves of a large-scale Venetian arch in softly dappled light. Viscose and linen, entwined, add a subtle sheen to the weft, and where they're clipped, unveil a sheer polyester warp. Quiet striations bring yet another layer to the five calming colorways of Ogee, a beautiful, double width drapery with 129" of lacy patterning. It's the perfect backdrop for any restful retreat in the home.
