Solstice

5815 Solstice

Solstice, is as big and as bold as the celestial bodies that inhabit the night sky. The dynamic pattern has achieved multiple awards; including an IIDA/HD Product Design Award, a HiP Award from Interior Design Magazine and the #MetropolisLikes Award. The 54" upholstery's large scale repeat mimics the rising and setting sun as the vibrant tessellation of triangles dance across the face of the fabric like shooting stars. Designed for indoor and outdoor applications, Solstice offers stain resistance and bleach cleanability for wide range applications. The solution-dyed acrylic and polyester warp allows for extreme lightfastness and boasts an abrasion resistance that passes 75,000 double rubs (Wyzenbeek, Cotton Duck). Created to be environmentally conscientious, the pattern has received a Facts Silver sustainability certification, truly rivaling the brilliance of the sun.
